RESUMÉ

I was born in Argentina, have lived in U.S.A and am married with a Dane with whom i live, in Aalborg.

I have a Bachelor of Science in Computer Science and I am advanced in my Master of Science in Computer Science. I have interrupted my studies from Argentina to be able to live with my wife and son.

My level of English is fluent, and my Danish is now good enough for me to seek employment in the IT field.

I am responsible, energetic, and hardworking. I love new challenges and approach to them very professionally.

PROFESSIONAL INTEREST

I would like to work in the following areas:

Game development, Programming, Software engineering and development, Web development, Webmaster, Internet of Things, Use of new technologies, Structured data, Linked data, Big data.

SKILLS

○ Programming languages:

- *Advanced:* HTML, CSS, Javascript, Python
- *Experienced:* Haskell, LaTeX, Bash, C, C++, SQL
- *Basics:* C#, .Net technologies, Java, Ruby, Standard ML, PHP

○ Frameworks and tools:

I have worked with many frameworks as Bootstrap, JQuery, Lodash, PureCSS, EasyRTC, NodeJS, Jekyll, Grunt, Sass and Bower.

Some of the tools I have worked with are PyCharm, Sublime Text, Atom, phpMyAdmin, Cordova and Google Chrome's DevTools.

○ Development skills:

App design and implementation, SPA, Front-end, Back-end, CMS developing (Umbraco, Wordpress, Django), use of formal methods for specification, network and domain management, virtualization.

- **Web applications:**
 - Design of UI and UX
 - Development with focus in crossplatform implementations
 - Maintenance with optimization goals and keeping technologies and techniques up to date

PERSONAL CHARACTERISTICS

- Work hard to achieve my goals and have always been very flexible regarding working hours.
- Structured and professional when working.
- Good sense of humor and empathic. I am a good communicator and like to interact with others.
- Can work under changing environments and have an easy time learning new products, technologies, and techniques.

PROFESSIONAL EXPERIENCE

VOCATIONAL.....

SafeEx

Software developer

Nørresundby

2016–

- As a Software developer at SafeEx I am in charge of designing, implementing and maintaining the UI and UX of our product. My goal is to provide a sensible environment for the users to perform their tasks with a smooth flow through the software and a logical and intuitive interface.

I have also taken part of developing different features for our software. This means that I've worked in a team in which we work in different tasks and centralize our efforts with the use of VCS. I have been very active collaborating both in our backend system (which uses Python and Django), and our app system (which uses mostly Javascript).

We provide support both via phone and online to our clients, and I excel at communicating both with the requester and with the team, in order to find the best solutions for our customers.

Kaffe Fair

Web designer og developer

Aalborg

2015–2015

- I designed and developed the new webpage for Kaffe Fair. It is responsive and works well in every platform. It backoffices in Umbraco.

Itecnis S.R.L

IT Consultant

Rosario, Argentina

2013–2014

- Setup and maintenance of web and mail servers
- Setup and maintenance of networks
- Provided IT support to customers via phone
- Setup and maintenance of workstations for customers
- Trained customers on use of systems and workstations
- Participated in development projects with responsibilities in UX/UI design, and front-end and back-end development

Itecnis S.R.L

Intern

Rosario, Argentina

2013–2013

- Was responsible for small projects, designed to help me understand the company's activities

- Maintenance of networks
- Learned to use daily tools as Linux shell and network diagnose tools

Miscellaneous.....

Fokus Folkeoplysning

Cleaning assistant

Aalborg

2014–2016

- Responsible for cleaning at Kaffe Fair and Fokus Fitness

Au pair

Washington, USA

2010–2011

- Lived a year in the U.S.A. to improve and gain more experience with my English skills
- As a result, I talk fluent English and met my wife in U.S.A.

EDUCATION

Danish language course

Sprogcenter Aalborg

Aalborg

2015–2016

Have passed exams Prøve i Dansk 1, Prøve i Dansk 2, and Prøve i Dansk 3. This last one I passed with an average of 8.5 in May 2016.

Master of Science in Computer Science

Universidad Nacional de Rosario

Rosario, Argentina

2011–

I have passed 90% of the education, but unfortunately cannot complete the education from Denmark.

Bachelor of Science in Computer Science

Universidad Nacional de Rosario

Rosario, Argentina
