RESUMÉ

I was born in Argentina, have lived in U.S.A and am married with a Dane with whom i live, in Aalborg.

I have a Bachelor of Science in Computer Science and I am advanced in my Master of Science in Computer Science. I have interrupted my studies from Argentina to be able to live with my wife and son. Since I got to Denmark, I have used my time to learn danish, and worked as a cleaning assistant to be able to support my family.

My level of English is fluent, and my Danish is now good enough for me to seek employment in the IT field.

I am responsible, energetic, and hardworking. I love new challenges and approach to them very professionally.

PROFESSIONAL INTEREST

I would like to work in the following areas:

Programming, Software engineering and development, Web development, Webmaster, WebRTC, Use of formal methods, Internet of Things, Use of new technologies, Structured data, Linked data, Big data.

SKILLS

○ **Programming languages:**
   - *Advanced:* HTML, CSS, Javascript, Python
   - *Experienced:* Haskell, LaTex, Bash, C, C++, Standard ML, PHP
   - *Basics:* C#, .Net technologies, Java, Ruby

○ **Frameworks:**
   Bootstrap, JQuery, EasyRTC, NodeJS, Django.

○ **Development skills:**
   Front-end, Back-end, CMS developing (Umbraco and Wordpress), use of formal methods for specification, network and domain management, virtualization.

- **Webpages:**
  - Development
  - Maintainance

PERSONAL CHARACTERISTICS

- Work hard to achieve my goals and have always been very flexible regarding working hours.
- Structured and professional when working.
- Good sense of humor and empathic. I am a good communicator and like to interact with others.
- Can work under changing environments and have an easy time learning new products, technologies, and techniques.
